

## Job Description

<b>Job title</b>	Senior Lecturer Pharmacology
<b>School / department</b>	College of Nursing, Midwifery and Health Care
<b>Grade</b>	7
<b>Line manager</b>	Head of Workforce Development
<b>Responsible for</b>	

### Main purpose of the job

To be responsible for leading the development, management and delivery of pharmacology and prescriber content within nursing and healthcare modules and courses across the College of Nursing, Midwifery and Healthcare (CNMH).

Working closely with the course team, the post holder will provide educational and pastoral support to students within the University and within clinical environments.

As a member of the academic team, the post holder will assist in the development of the professional, academic, research and scholarly profile of pharmacology within CNMH.

In addition to the above areas of responsibility the position maybe required to undertake any other reasonable duties relating to the broad scope of the position.

### Key areas of responsibility

Deliver and participate in/contribute to, the development of pharmacology and prescriber content within modules/courses/study days, across the College's pre-registration and post-registration education portfolio.

Develop high quality teaching and learning materials to support the delivery of the modules and courses.

Deliver innovative teaching, learning and assessment strategies that enhance the student learning experience. This to students on a range of pre and post registration and commercial healthcare courses offered by the College of Nursing, Midwifery and Healthcare.

Support students throughout their course, acting as personal tutor, monitoring and reporting on their progression and supporting their knowledge acquisition and key and academic skills development.

Work in partnership with the course team, clinical staff, managers and service users to deliver high quality modules/courses relevant to the needs of health service users and their carers/families/significant others.

Support engagement with partner health and social care providers and other stakeholders.

Support and contribute to applied research, professional development and other scholarly activity in support of the College's academic development programme.

Take responsibility for ensuring one's own academic and professional development within the field of pharmacology and clinical health care is maintained.

Ensure active involvement in the recruitment and selection process of students and all others commensurate with the grade of lecturer.

Carry out all necessary administrative responsibilities, participate and engage fully in quality assurance processes within the College and wider University.

In addition to the above areas of responsibility the position maybe required to undertake any other reasonable duties relating to the broad scope of the position.
